Electrical / Lighting / Controls

Yash Baheti - Founder

Grew up in a family of business owners, inspired by my uncle who built [Yash Technologies](#) from the ground up. From an early age, I saw what it means to build with resilience, integrity, and care for people and legacy.

My background spans real estate development, construction management, and SaaS consulting, with an MBA from Chicago Booth. I've worked across multimillion dollar projects, helping teams solve tough operational challenges and create lasting value.

My mission is simple: to acquire one great business, honor what's been built, & lead it with clarity, respect, & long-term commitment.

What We're Looking For

Industry Focus	B2B services in industrial, infrastructure, or facility sectors focused on compliance, safety, and essential operations
Revenue	\$2M - \$12M+ Annually
EBITDA	\$500K - \$2M (Stable recurring cash flows preferred)
Location	U.S.A preference for Midwest to East Coast
Customer	Sticky/recurring customer relationships
Ownership Situation	Founder owned or family-owned businesses seeking succession or exit
Company Traits	Stable history, low capex, limited cyclicity, & strong employee culture
Deal Structure	Majority control or 100% buyout, with flexible transition timelines based on seller goals

Why Partner with YBridge Capital

We earn trust by doing, not promising: Backed by a team that's built and run businesses, we bring real-world operator experience to protect and grow what founders have created.

A successor who leads with care and clarity: We roll up our sleeves, work alongside teams, and guide transitions thoughtfully so owners, employees, and customers feel supported every step of the way.

In it for the next chapter, not the next deal: Our focus is long-term growth - building on your legacy for the next decade and beyond, not chasing a quick flip or exit.
